Material facts

There are no material facts about the securities being distributed that have not been disclosed in this offering document or in any other document filed by the Company in the 12 months preceding the date of this offering document.

What are the business objectives that we expect to accomplish using the available funds?

The Company intends to use the proceeds raised from the Offering for general working capital purposes, mineral property exploration activities and expenditures, marketing and advertising, and as otherwise described in the Offering Document.

PART 3: USE OF AVAILABLE FUNDS

What will our available funds be upon the closing of the Offering?

		Assuming 100% of Offering (\$)
A	Amount to be raised by this Offering	1,033,500
B	Selling commissions and fees	72,345
C	Estimated Offering costs (e.g., legal, accounting, audit)	10,000
D	Net proceeds of Offering: $D = A - (B+C)$	951,155
E	Working capital as at most recent month end (deficiency) ⁽¹⁾	50,000
F	Additional sources of funding	0
G	Total available funds: $G = D+E+F$	1,001,155
Notes:		
1. The working capital as at October 31, 2025, is an estimate of management; actual results may differ.		

How will we use the available funds?

We will use the available funds as follows:

Description of intended use of available funds listed in order of priority	Assuming 100% of Offering (\$)⁽¹⁾⁽²⁾⁽³⁾
Exploration Activities in Canada	100,000
General corporate and administrative expenses	100,000
Unallocated working capital	801,155
Notes: 1. The above noted allocation of capital and anticipated timing represents the Company's current intentions based upon its present plans and business condition, which could change in the future as its plans and business conditions evolve. Although the Company intends to expend the proceeds from the Offerings as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan. See the "Cautionary Statement Regarding Forward-Looking Information" section above. 2. The most recent unaudited interim financial statements of the Company included a going concern note. Management is aware, in making its going concern assessment, of recurring losses, on-going negative cash flow and an ongoing dependence on financing activities that may cast significant doubt on the Company's ability to continue as a going concern. The Company is in the process of exploring its mineral properties and has not yet determined whether the properties contain reserves that are economically recoverable. The business of mining and exploration involves a high degree of risk and there can be no assurance that the Company's exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the discovery of economically recoverable reserves and resources, securing and maintaining title and beneficial interest in its properties, making the required payments pursuant to mineral property option agreements and/or securing additional financing, all of which are uncertain. The Offering is intended to permit the Company to continue its operations, with the goal of advancing its exploration activities and is not expected to affect the decision to include a going concern note in the next financial statements of the Company. 3. The available funds will not be paid to an insider, associate, or affiliate of the Company, except for normal course salaries or consulting fees currently paid by the Company to its officers and/or directors.	

How have we used the other funds we have raised in the past 12 months?

During the past 12 months, the Company has raised CA\$489,000.00 through the closing of a single private placement financing on January 23, 2025. The proceeds of the Offering were used to advance exploration at its Senneterre West claims, potential acquisitions, marketing and awareness campaigns, and for general working capital.

PART 4: FEES AND COMMISSION

Who are the dealers or finders ("Agent(s)") that we have engaged in connection with this Offering, if any, and what are their fees?

a) the name of the dealer, finder, or other person

The Company may pay finder's fees to eligible finders (each, a "**Finder**") in respect of subscribers introduced by the Finder. Further information will be provided in subsequent news releases, once available.

b) a description of each type of compensation and the estimated amount to be paid for each type

The Company may pay a Cash Fee (as defined below) and may issue Finder's Warrants (as defined below) to Finders.

c) if a commission is being paid, the percentage that the commission will represent of the gross proceeds of the offering (assuming both the minimum and maximum offering)

The Company may pay a cash fee up to 7% of the gross proceeds raised in the Offering (the "**Cash Fee**") to Finders.

- d) details of any broker's warrants or agent's option (including number of securities under the warrants or option, exercise price and expiry date)

The Company may issue the Finders such number of finder's warrants (each a "**Finder's Warrant**") as is equal to 7% of the number of Units sold pursuant to the Offering. Each Finder's Warrant will entitle the holder thereof to acquire one (1) additional common share of the Company at a price of \$0.40 per common share for a period of two (2) years from the Closing Date.

- e) if any portion of the compensation will be paid in securities, details of the securities (including number, type and, if options or warrants, the exercise price and expiry date)

See Item 4(d) above.

Do the Agent(s) have a conflict of interest?

To the knowledge of the Company, the Company is not a "related issuer" or "connected issuer" of or to any Agent(s), as such terms are defined in National Instrument 33-105 *Underwriting Conflicts*.
